PHYSICS LETTERS A

MASTER INDEX TO VOLUMES 171–180

NORTH-HOLLAND

PHYSICS LETTERS A

A journal devoted to the rapid publication of short communications in all fields of Physics excluding Nuclear Physics and Particle Physics.

INSTRUCTIONS TO AUTHORS

Submission: Contributions, written in English, should be sent to the editor whose expertise covers the research reported and with whom the author can communicate efficiently.

Editorial Board, addresses and primary interests:

V.M. AGRANOVICH
Institute of Spectroscopy,
Russian Academy of Sciences,
Troitsk, Moscow obl. 142092, Russian Federation
Bitnet: AGRAN@ISAN.MSK.SU; Fax: 7-095-334-08-86

Condensed Matter Physics
Theoretical Physics
Statistical Properties of Condensed Matter

A.R. BISHOP
MS-B284, Theoretical Division and Center for Nonlinear Studies,
Los Alamos National Laboratory,
Los Alamos, NM 87545, USA
Bitnet: ARB@DOVE.LANL.GOV; Fax: 1-505-665-3003

Nonlinear Science
Statistical Physics

J. FLOUQUET
CRTBT/CNRS
Boîte Postale 166X, F-38042 Grenoble Cedex, France
Fax: 33-76-872197

Condensed Matter Physics

A.P. FORDY
Centre for Nonlinear Studies
and Department of Applied Mathematical Studies,
University of Leeds,
Leeds LS2 9JT, England

Nonlinear Science
Cross-Disciplinary Physics

B. FRICKE
Fachbereich Physik, Universität Kassel,
Heinrich-Plett-Strasse 40, 34132 Kassel, Germany
Fax: 49-561-8044518

Atomic, Molecular and Cluster Physics

D.D. HOLM
MS-B284, Theoretical Division and Center for Nonlinear Studies,
Los Alamos National Laboratory,
Los Alamos, NM 87545, USA

Nonlinear Science
Mathematical and Computational Methods
in Theoretical Physics

A. LAGENDIJK
Van der Waals–Zeeman Laboratorium, Universiteit van Amsterdam,
Valckenierstraat 65–67, 1018 XE Amsterdam, The Netherlands
Fax: 31-20-5255788

Condensed Matter Physics
Optical Physics

M. PORKOLAB
Plasma Fusion Center, NW17-288,
Massachusetts Institute of Technology,
175 Albany Street, Cambridge, MA 02139, USA
Fax: 1-617-2530238

Plasma and Fluid Physics
Statistical Properties of Plasmas and Fluids

L.J. SHAM
Department of Physics, 0319
University of California, San Diego
9500 Gilman Drive, La Jolla, CA 92093-0319, USA
Bitnet: LUSHAM@UCSD.EDU; Fax: 1-619-4590336

Condensed Matter Physics

J.P. VIGIER
P.R. HOLLAND
Laboratoire de Physique Théorique,
Université Pierre et Marie Curie, Tour 22-12, 4ème étage,
4 Place Jussieu, 75252 Paris Cedex 05, France
Fax: 33-1-40510661

General Physics
Quantum Optics
Physical Principles of Astronomy

In case of doubt, contributions can be submitted directly to the publisher addressed to Physics Letters A, Elsevier Science Publishers B.V., P.O. Box 103, 1000 AC Amsterdam, The Netherlands. However, it should be realized that such papers will have to be forwarded to one of the editors, which will result in some delay.

US mailing notice – Physics Letters A (ISSN 0375-9601) is published weekly by Elsevier Science Publishers (Molenwerf 1, Postbus 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the USA US$ 2410.00 (subject to change), including air speed delivery. Second class postage paid at Jamaica, NY 11431.

USA POSTMASTERS: Send address changes to Physics Letters A, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Airfreight and mailing in the USA by Publication Expediting.

No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the written permission of the Publisher, Elsevier Science Publishers B.V., Copyright and Permissions Department, P.O. Box 521, 1000 AM Amsterdam, The Netherlands.

Special regulations for authors. Upon acceptance of an article by the journal, the author (s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $ 2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Quantum Chaos

edited by **G. Casati, I. Guarneri** *and* **U. Smilansky**

©1993 428 pages ISBN 0-444-81588-0
Price: Dfl. 315.00 (US $ 180.00) Subscription price: Dfl. 268.00 (US $ 153.25)

The study of quantum systems which are chaotic in the classical limit (quantum chaos or quantum chaology) is a very new field of research. Not long ago, it was still considered as an esoteric subject, however this attitude changed radically when it was realized that this subject is relevant to many of the more mature branches of physics.

This book presents the accumulated knowledge available up until now and at the same time introduces topics which are being intensively studied at present. Their relevance to other fields such as condensed matter, atomic and nuclear physics is also discussed. The lectures have been divided into two rough categories - background and advanced lectures.

Contents: Preface. Hyperbolic structure in classical chaos *(R.S. MacKay)*. A new paradigm in quantum chaos: Aubry's theory of equilibrium states for the adiabatic Holstein model *(R.S. MacKay and C. Baesens)*. Periodic-orbit theory *(B. Eckhardt)*. The semi-classical helium atom *(D. Wintgen, K. Richter and G. Tanner)*. The Riemann zeta-function and quantum chaology *(J. Keating)*. Quantum localization *(S. Fishman)*. Dynamical localization in the hydrogen atom *(D.L. Shepelyansky)*. Dynamical localization, dissipation and noise *(R. Graham)*. Statistics of quasi-energy spectrum *(F.M. Izrailev)*. Scattering and resonances: classical and quantum dynamics *(P. Gaspard)*. Exotic fractals and atomic decay *(R. Blümel)*. Quantum chaotic scattering and microwave experiments *(E. Doron, U. Smilansky and A. Frenkel)*.

ISBN 0-444-89561-2

Crystal-Quasicrystal Transitions

M.J. Yacamán and M. Torres *(eds.)*
1993 x + 238 pages
US $120.00/Dfl.210.00
ISBN 0-444-89827-1

Magnetic Properties of Fine Particles

J.L. Dormann and D. Fiorani *(eds.)*
1992 xiv + 432 pages
US $171.50/Dfl.300.00
ISBN 0-444-89552-3

Dynamics and Mechanisms of Photoinduced Electron Transfer and Related Phenomena

N. Mataga, T. Okada and H. Masuhara *(eds.)*
1992 xviii + 566 pages
US $148.50/Dfl.260.00
ISBN 0-444-89191-9

Photochemical Processes in Organized Molecular Systems

K. Honda *(ed.)*
1991 xiv + 538 pages
US $114.00/Dfl.200.00
ISBN 0-444-88878-0

Neutron, X-Ray and Light Scattering

P. Lindner and T. Zemb *(eds.)*
1991 x + 376 pages
US $100.00/Dfl.175.00
ISBN 0-444-88946-9

Nonlinear Phenomena in Fluids, Solids and Other Complex Systems

P. Cordero and B. Nachtergaele *(eds.)*
1991 xii + 482 pages
US $128.50/Dfl.225.00
ISBN 0-444-88791-1

Thermal Field Theories

H. Ezawa, T. Arimitsu and Y. Hasimoto *(eds.)*
1991 xvi + 606 pages
US $128.50/Dfl.225.00
ISBN 0-444-88903-5

Mechanics, Analysis and Geometry: 200 Years after Lagrange

M. Francaviglia *(ed.)*
1991 xii + 560 pages
US $137.00/Dfl.240.00
ISBN 0-444-88958-2

Strongly Coupled Plasma Physics

S. Ichimaru *(ed.)*
1990 xxiv + 708 pages
US $150.00/Dfl.263.00
ISBN 0-444-88363-0

Between Science and Technology

A. Sarlemijn and P.A. Kroes *(eds.)*
1990 viii + 214 pages
US $57.00/Dfl.100.00
ISBN 0-444-88659-1

Scattering in Volumes and Surfaces

M. Nieto-Vesperinas and J. Dainty *(eds.)*
1990 viii + 324 pages
US $105.00/Dfl.184.00
ISBN 0-444-88529-3

High Gain, High Power Free Electron Laser: Physics and Application to TeV Particle Acceleration

R. Bonifacio, L. De Salvo Souza and C. Pellegrini *(eds.)*
1989 xvi + 310 pages
US $116.50/Dfl.204.00
ISBN 0-444-87395-3

Nonlinear Phenomena in Complex Systems

A.N. Proto *(ed.)*
1989 viii + 256 pages
US $129.00/Dfl.226.00
ISBN 0-444-88035-6

Turbulence and Nonlinear Dynamics in MHD Flows

M. Meneguzzi, A. Pouquet and P.L. Sulem *(eds.)*
1989 x + 280 pages
US $116.50/Dfl.204.00
ISBN 0-444-87396-1

Geometrical and Algebraic Aspects of Nonlinear Field Theory

S. De Filippo, M. Marinaro, G.Marmo and G. Vilasi *(eds.)*
1989 x + 248 pages
US $104.00/Dfl.166.00
ISBN 0-444-87359-7

TO ORDER

Contact your regular supplier or:

ELSEVIER SCIENCE PUBLISHERS

P.O. Box 211
1000 AE Amsterdam
The Netherlands

Customers in the USA and Canada:

ELSEVIER SCIENCE PUBLISHING CO. INC.

P.O. Box 882
Madison Square Station
New York, NY 10159, USA

No postage will be added to prepaid book orders. US $ book prices are valid only in the USA and Canada. In all other countries the Dutch guilder (Dfl.) price is definitive. Customers in the European Community should add the appropriate VAT rate applicable in their country to the the price(s). In New York State please add applicable sales tax. All prices are subject to change without prior notice.

NORTH-HOLLAND

(AN IMPRINT OF ELSEVIER SCIENCE PUBLISHERS)

415/b/535c

INSTRUCTIONS TO AUTHORS *(continued from page 2 of cover)*

The manuscripts should be submitted in triplicate, one copy of which is the typewritten original.

All contributions will be refereed. The editors reserve the right to edit contributions, whenever necessary, and to refuse papers which in their opinion do not satisfy conditions as to standard or contents. Linguistic corrections not affecting the meaning will be carried out by the publisher.

By submitting a paper for publication in Physics Letters the authors imply that the paper has not been published previously nor has been submitted for publication elsewhere.

Manuscripts should be typed on one side of the paper, with double spacing and a wide margin. The title page should contain title, author(s), address(es) and abstract. The main text should start on a new page.

The *length* of the papers is not formally limited, but expedient and compact formulation, appropriate to a letters journal, is expected. The editor may require the removal of figures, lengthy introductions, derivations, descriptions of apparatus or speculations if these are not essential for the efficient and clear communication of important new results. An *abstract* of less than 50 words is required.

The drawings for the *figures* must be submitted on separate sheets, drawn in black India ink and carefully lettered (with the use of stencil), in such a way that they can be reduced to a one-column width. Sharp and contrast glossy prints are also acceptable. If requested, original drawings will be returned to the author(s) upon publication of the paper.

Colour plates. Illustrations can be printed in colour when they are judged by the editor to be essential to the presentation. The publisher and the author will each bear part of the extra costs involved. Further information concerning colour illustrations and the cost to the author is available from the publisher.

Corrections and modifications. Once the paper has been accepted for publication, minor corrections should be sent directly to the publisher (see below). Extensive modifications should be sent to the editor, while the publisher should be notified to hold publication. Authors may be charged with the costs of necessary retypesetting.

After acceptance of the paper for publication, all further correspondence (except extensive modifications, see above) should be sent to the publisher (Drs. F.A. Kop, Editorial Department, North-Holland Physics, P.O. Box 103, 1000 AC Amsterdam, The Netherlands; telephone number (020) 5862638), and not to the editors.

More elaborate instructions to authors can be found at the end of each volume.

Page charge and reprints. There is no page charge. Fifty reprints of each article will be supplied free of charge. Additional reprints may be ordered from the Publisher; an order form is sent to contributors upon acceptance of their communications.

SUBSCRIPTIONS

PHYSICS LETTERS A and PHYSICS LETTERS B will each be published weekly. For 1993 13 volumes, volumes 172–184 (78 issues altogether) of Physics Letters A have been announced. The subscription price for these volumes is Dfl. 3900.00 (US$ 2170.00). Postage and handling amount to Dfl. 429.00 (US$ 240.00). Therefore the total price is Dfl. 4329.00 (US$ 2410.00). For 1993 23 volumes, volumes 294–316 (92 issues altogether) of Physics Letters B have been announced. The subscription price for these volumes is Dfl. 7015.00 (US$ 3900.00). Postage and handling amount to Dfl. 759.00 (US$ 420.00). Therefore the total price is Dfl. 7774.00 (US$ 4320.00).

PHYSICS REPORTS will be published approximately weekly. For 1993 12 volumes, volumes 228–239 (72 issues altogether) of Physics Reports have been announced. The subscription price for these volumes is Dfl. 3660.00 (US$ 2030.00). Postage and handling amount to Dfl. 396.00 (US$ 220.00). Therefore the total price is Dfl. 4056.00 (US$ 2250.00).

The price for a combined subscription to the 1993 volumes of Physics Letters A, Physics Letters B and Physics Reports is Dfl. 14304.00 (US$ 7950.00), including postage and handling.

Dutch guilder prices are definitive; dollar prices are for guidance only.

Subscriptions may be sent to your subscription-agent, bookseller or to the Publisher: ELSEVIER SCIENCE PUBLISHERS B.V., Journals Department, P.O. Box 211, 1000 AE AMSTERDAM, THE NETHERLANDS.

Claims for missing issues should be made within six months following the date of publication. The Publisher expects to supply missing issues free only when losses have been sustained in transit and when stock will permit.

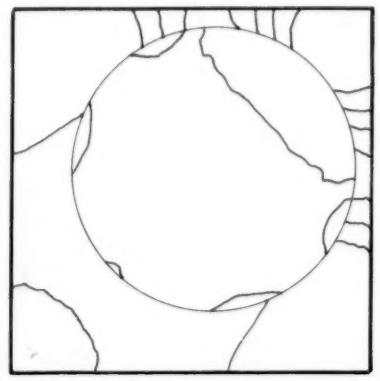
Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US$ 2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the Publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

COMPUTATIONAL MATERIALS SCIENCE



proudly announces Volume 1, Number 3

a selection of the 20 articles:

Some simple models for micromechanical investigations of fiber arrangement effects in MMCs
H.J. Böhm, F.G. Rammerstorfer and E. Weissenbek

FE-modelling of the deformation behaviour of WC-Co alloys
M.H. Poech, H.F. Fischmeister, D. Kaute and R. Spiegler

Finite element modelling of a transverse-loaded fibre composite. Effects of section size and net density
M. Sautter, Ch. Dietrich, M.H. Poech, S. Schmauder and H.F. Fischmeister

Structure-property relations in duplex materials
T. Siegmund, E. Werner and F.D. Fischer

J-integral concept for multi-phase materials
D. Weichert and M. Schulz

The effect of interfacial sliding on the strength of metal matrix composites
D.B. Zahl

Modelling of scattering materials properties with stochastic finite element methods
S. Reh, A. Brückner-Foit and H. Riesch-Oppermann

Finite element modelling of crack propagation in ductile fracture
J. Wulf, S. Schmauder and H.F. Fischmeister

A numerical method for delamination in composites
H.M. Jensen

Two unique features:

Computer Videos

Authors are encouraged to submit computer videos accompanying their articles; these videos will be made accessible to the readers through the Computational Materials Science Video Library.

Electronic Bulletin Board

Associated with the journal an Electronic Bulletin Board is accessible free of charge. The Bulletin Board will provide information on:

- **programmes and subroutines supplied by authors**
- **data, such as structural coordinates or simulated time sequences pertaining to an article published in the journal**
- **contents of future issues**
- **items of further interest, including computer info, etc.**
- **conference calendar**

To receive the Bulletin Board free of charge, send an e-mail to cmp-soft@sci.funet.fi. On the subject line write subscribe (your name). The e-mail address will be automatically extracted. The body of the e-mail is of no significance. By writing 'help' on the subject line you receive more information about this service.

Subscription Information
1992-1993: Volume 1 (in 4 issues)
Price: US$ 222.00/Dfl. 368.00
including postage and handling costs
ISSN 0927-0256

The Dutch Guilder (Dfl.) price is definitive.
US$ price is subject of exchange rate fluctuations.
